*Dear Greenville Water Utility Customers,
The present proposed rate increase is the result of two of our water suppliers raising their rate. This is due to improvements to their systems in order to be able to provide us with a greater water supply. The amount of the rate increase will be .46 cents per 1,000 gallons. The average water bill will increase approximately \$2.12 per month. Although the Greenville Town Council regrets having to raise the water rates, they believe that this increase is necessary in order to insure our commitment of having the highest standards possible for our customers.*
